1997

Georgia Water Resources Conference

March 20–22, 1997
The University of Georgia
Athens, Georgia U.S.A.

Edited by
Kathryn J. Hatcher

Sponsored and Organized by

U.S. Geological Survey
Georgia Department of Natural Resources
The University of Georgia
Georgia State University
Georgia Institute of Technology
Proceedings of the

1997
Georgia Water Resources Conference

March 20-22, 1997
Athens, Georgia

Sponsored by
U.S. Geological Survey
Georgia Department of Natural Resources
The University of Georgia
Georgia State University
Georgia Institute of Technology

Edited by
Kathryn J. Hatcher

Institute of Ecology
The University of Georgia
Athens, Georgia  U.S.A.
Conference Steering Committee

Bruce Beck, Georgia Research Alliance Eminent Scholar, School of Forest Resources, The University of Georgia
Sally Bethea, Upper Chattahoochee Riverkeeper, Atlanta
Susan Crow, Public Service Faculty, Institute of Community and Area Development, The University of Georgia
Ron Cummings, Georgia Research Alliance Eminent Scholar, School of Public Policy, Georgia State University
Kathryn Hatcher, Water Resources Engineer, Institute of Ecology, The University of Georgia
Bernd Kahn, Director, Environmental Resources Center, Georgia Institute of Technology
Fox McCarthy, Water Conservation Coordinator, Cobb County - Marietta Water Authority
Seth Rose, Professor, Department of Geology, Georgia State University
Nolton Johnson, Chief of Water Management Branch, Environmental Protection Division, Georgia Department of Natural Resources
Todd Rasmussen, Assistant Professor, School of Forest Resources, The University of Georgia

Co-Sponsors

American Society of Civil Engineers, Georgia Section
American Water Resources Association, Georgia
American Water Works Association, Georgia Chapter
Georgia DNR Pollution Prevention Assistance Division
Georgia Soil & Water Conservation Commission
Georgia Water and Pollution Control Association
Georgia Lake Management Society
Georgia Municipal Association
Georgia Rural Water Association
Georgia Water Wise Council
Georgia Environmental Organization
The Georgia Conservancy
Corps of Engineers, Mobile District
Corps of Engineers, Savannah District
South Atlantic Division, Corps of Engineers
National Weather Service Southeast River Forecast Center
U.S. Environmental Protection Agency Region IV
U.S. Fish and Wildlife Service
U.S. Natural Resources Conservation Service
Upper Chattahoochee Riverkeeper
# TABLE OF CONTENTS

## LUNCHEON SPEAKERS
Surface Water Withdrawal Permit Programs for Humid Regions .................................................. 1
   \textit{J. Wayland Eheart, Dept. of Civil Engineering, University of Illinois, Urbana IL}
Update of Water Related Legislation in the 1995-96 Georgia General Assembly .............................. 5
   \textit{James E. Kundell, Carl Vinson Institute of Government, The University of Georgia}

## DINNER SPEAKERS
Moderator: \textit{Todd Rasmussen, School of Forest Resources, The University of Georgia}
New Directions for American Water Resources Association .............................................................. *
   \textit{Stephan J. Nix, President, American Water Resources Association}
A Visual Tour of the Chattahoochee River: Headwaters to Gulf by Canoe ....................................... *
   \textit{Joe and Monica Cook, Rome, Georgia}
Overview of Georgia’s River Care 2000 Program ............................................................................. *
   \textit{Lonice Barrett, Commissioner, Georgia Department of Natural Resources}

## PLENARY SESSION:
The Future of Water Resources Management in the ACT and ACT River Basins -
Looking Beyond the Comprehensive Study
Moderator: \textit{Roger A. Burke, Chief, Plan Formulation Branch, U.S. Army Corps of Engineers, Mobile District}
Shared Vision Model and How It Will be Used in the ACT/ACF Comprehensive Study ....................... *
   \textit{Janet Starnes, Senior Policy Analyst, Northwest Florida Water Management District}
Interstate Compacts ......................................................................................................................... *
   \textit{Norton Johnson, Chief, Water Resources Management Branch, Georgia Environmental Protection Division}
Allocation Formula Concepts ............................................................................................................. *
   \textit{Walter Stevenson, Jr., Chief, Office of Water Resources, Alabama Dept. Economic & Community Affairs}
Development of an Interagency Management Plan for Federal Agencies ...........................................
   \textit{J. Keith. Graham, U.S. Army Corps of Engineers, Mobile District}

## TRACK I. BASIN-WIDE PLANNING

### Comprehensive Basin Management -- Modeling
Moderator: \textit{Gary Mauldin, U.S. Army Corps of Engineers, South Atlantic Division}
Water Resources Management: Challenges and Opportunities ............................................................ 9
   \textit{Aris P. Georgakakos, Georgia Institute of Technology}
Decision Analysis and Optimization Modeling for Complex Water Resource Systems ....................... 14
   \textit{L. Jeffrey Lefkoff, Hydrologic Consultants, Inc., and Donald R. Kendall, Calleguas Municipal Water District}
Effective Water Supply Planning in Uncertain Times .......................................................................... 19
   \textit{Trish Reifenberger, Brown and Caldwell, Inc., and James Parsons, Cobb County-Marietta Water Authority}
Water Reuse Challenges in Georgia: A Gwinnett County Case Study ............................................... 22
   \textit{Ken C. Hall, CH2M HILL}

### Interstate Water Management
Moderators: \textit{Ron Cummings, Policy Research Center, Georgia State University}
An Interstate Management Strategy for the Suwannee River Basin .................................................... 26
   \textit{Kirk Webster, Suwannee River Water Management District, and Mork Winn, Georgia Environmental Protection Division}
Interstate Coordination Mechanisms for the ACF Basin from a Florida Perspective .......................... 28
   \textit{Andrew A. Daurik, Florida State University}
The Interstate Compacts for Water Allocation of the ACF and ACT River Basins: A Legal Perspective ... 31
   \textit{Leigh Martin, Law School, The University of Georgia}
Water Allocation Alternatives -- ACT/ACF River Basins
Moderators: Leroy Crosby, U.S. Army Corps of Engineers - Savannah District  
Preparing and Using Shared Vision Models for the Apalachicola-Chattahoochee-Flint Watershed  
Steve Leitman and Janet Starnes, Northwest Florida Water Management District  
Developing and Analyzing River System Management Alternative for the ACT/ACF Comprehensive Study  
Steve Whitlock, Georgia Environmental Protection Division  
Key Steps to Water Allocation Formulas for the ACT and ACF River Basins  
David E. Hawkins, Georgia Environmental Protection Division  
Calibration of STELLA and HEC-5 Models for the ACF Basin  
Yongqing Yu, Dave Hawkins, Steve Whitlock, and Owen McKeon, Georgia Environmental Protection Division

Water Quality of the Lower ACF River Basin
Moderator: Bill Tietjen, Department of Biology, Georgia Southwestern College  
Environmental Distribution of Mercury Related to Land Use and Physicochemical Setting in Watersheds of the Apalachicola-Chattahoochee-Flint River Basin  
Carol A. Couch, U.S. Geological Survey  
Transport of Trace Elements and Semi-volatile Organic Compounds in Fluvial Sediments of the Lower Flint River (Georgia) and Apalachicola River (Georgia, Florida, Alabama) Basins During Tropical Storm Alberto, July 1994  
Gary R. Buel, U.S. Geological Survey  
Jerry W. Garrett, Howard A. Perlman, and Judith D. Scholz, U.S. Geological Survey  
Pesticide Occurrence in the Upper Floridan Aquifer in the Dougherty Plain and Marianna Lowlands Districts, Southwestern Georgia and Adjacent Areas of Alabama and Florida  
Daniel J. Hippe, U.S. Geological Survey

Water Management Issues in the Lower ACF Basins
Moderator: Ronald M. North, North American Water Management Institute, Athens  
PANEL: Southwest Georgia Water Management Issues  
Ronald M. North, North American Water Management Institute  
Agricultural Practices and Water Quality, Elizabeth Blood, J.W. Jones Ecological Center  
Water Policy and Management Issues for Agriculture and Agribusiness, Brian Dill, Georgia Farm Bureau Federation  
Water Management and Economic Development, Ken Hatcher, Stevenson & Palmer Engineers  
Waterways, Navigation, and Agriculture - ACF River Basin, Homer Hirt, Tri-Rivers Waterway Association  
Economic, Recreational and Environmental Issues of Water Management in Southwest Georgia  
Linda Kuller, Southwest Georgia Regional Development Center  
The Flint River Basin: Unfinished Products  
Ronald M. North, North American Water Management Institute

Comprehensive River Basin Planning and Assessment
Moderator: Gail Cowie, Institute of Community and Area Development, The University of Georgia  
Hydrologic Unit Mapping in Georgia  
Mark N. Landers, U.S. Geological Survey  
Water Quality Assessment of the Suwannee River Basin  
Jean-Paul Calixte and Jimmy R. Bramblett, U.S.D.A. Natural Resources Conservation Service  
Resources for Citizen Participation in Watershed Protection  
Olin M. Ivey, GEO--Georgia Environmental Organization, Inc.  
A Citizen’s Guide for Watershed Protection  
Barrett P. Walker, GEO--Georgia Environmental Organization, Inc.  
RIO: Directory and Atlas for the Georgia Region  
Karen Bohling McGrath, GEO--Georgia Environmental Organization, Inc.  
Hazard Mitigation Activities Involving Dams  
Tom Woolsey, Safe Dams Program, Georgia DNR Environmental Protection Division
Savannah River Basin
Emerging Water Resources Management Issues in the Savannah River Basin ........................................... 88
Meredith C. Anderson, U.S. Environmental Protection Agency; Leroy G. Crosby,
U.S. Army Corps of Engineers; Sally Knowles, South Carolina Department of Health
and Environmental Control; Nilton Johnson, Georgia Department of Natural Resources;
Olin Ivey, GEO--Georgia Environmental Organization, Inc.; and Chuck Coomer, Georgia Department
of Natural Resources
A Comprehensive Water Resources Development Study for the Savannah River Basin ................................ 91
Leroy G. Crosby, U.S. Army Corps of Engineers - Savannah

TRACK II. WATER QUALITY MANAGEMENT

Atlanta Area Stream Quality
Moderator: Pat Stevens, Atlanta Regional Commission
Evaluation of Streamwater Quality in the Atlanta Region ................................................................. 94
Stream Quality Assessments in the Developing Community ............................................................ 99
Robert L. Bourne and Ransom Bennett, Cobb County Water System
Spatial and Temporal Variability in Nutrient Concentrations in Surface Waters of the
Chattahoochee River Basin Near Atlanta, Georgia .......................................................... 103
Norman E. Peters, Gary R. Buell, and Elizabeth A. Frick, U.S. Geological Survey
Surface-water and Shallow Ground-water Quality in the Vicinity of Metropolitan Atlanta,
Upper Chattahoochee River Basin, Georgia, 1992-95 ......................................................... 113
Elizabeth A. Frick, U.S. Geological Survey
Use of a Preliminary Index of Biotic Integrity in Urban Streams Around Atlanta, Georgia ................ 118
Joseph C. DeVivo, The University of Georgia; Carol A. Couch, U.S. Geological Survey; and
Byron J. Freeman, The University of Georgia

Agriculture and Forestry
Moderator: Cran Upshaw, U.S. Natural Resources Conservation Service
Effects of Acidic Deposition on Water Quality and Forest Health in Georgia ............................ 122
Thomas G. Huntington and Richard P. Hooper, U.S. Geological Survey
Agricultural Irrigation Trends in Georgia ..................................................................................... 127
Kerry A. Harrison and Anthony W. Tyson, University of Georgia Cooperative Extension Service
Partnering for Georgia's Natural Resources: The 1996 Farm Bill ............................................. 131
Jimmy R. Bramlett, U. S. D. A. Natural Resources Conservation Service

Sedimentation and Turbidity
Moderator: James E. Kundell, Vinson Institute of Government, The University of Georgia
Big Creek Watershed Volunteer Monitoring and Education Program: Focus on Wet Weather Sediment and
Turbidity Levels .................................................................................................................. 134
Glynn Forrest Grozmann, Grozmann Environmental Services
Sedimentation and Georgia's Fishes: An Analysis of Existing Information and Future Research .................................................. 139
Kevin H. Barnes, Judy L. Meyer, and Byron J. Freeman, The University of Georgia
Characterization of Temporal and Spatial Variability of Turbidity in the Upper Chattahoochee River .................. 144
Skelly A. Holmbeck-Pelham and Todd C. Rasmussen, The University of Georgia
The Dirt II Panel: Georgia's Erosion and Sediment Control Technical Committee ............................ 144
Benjamin C. Dysart, Dysart and Associates, Inc.
Technical Problems with Implementing a Statewide Sediment Control Program ...................................... *
Art Horowitz, U.S. Geological Survey

* Indicates a panel discussion or a presentation that involves multiple speakers.
Pollution Prevention in Georgia
Moderator: L. Mark Risse, Biological and Agricultural Engineering, The University of Georgia
Opportunities and Impediments for Pollution Prevention in Crop Production ........................................ 148
L. Mark Risse, The University of Georgia
Reducing the Pollution Potential of Pesticides and Fertilizers in the Environmental Horticulture Industry ........ 156
Joyce G. Latimer and S. Kristine Braham, The University of Georgia
Water Conservation and Waste Minimization in the Food Processing Industry ....................................... 158
Michael G. Powell, The University of Georgia
Water Conservation Through Automated Dyebath Reuse .......................................................................... 160
James L. Clark, Georgia Institute of Technology

Total Maximum Daily Loads
Moderator: Jim Greenfield, U.S. Environmental Protection Agency - Region IV
Sierra Club v. U.S. EPA: The Case Filed to Clean Up Georgia’s Waters .......................................................... 164
Christy Waite Espy, School of Forest Resources, The University of Georgia
Overview of the TMDL Development Process ............................................................................................... *
John Deatrick, Water Management Division, U.S. Environmental Protection Agency, Region IV
The Georgia TMDL Lawsuit ......................................................................................................................... *
Yvonne Martin, Water Management Division, U.S. Environmental Protection Agency

Lake Lanier and the Upper Chattahoochee Basin
Moderator: Ed Mayhew, Biology Department, Gainesville College
Survey of Nonpoint Trace Metal Inputs to Lake Lanier ...................................................................................... 170
David S. Leigh and Douglas W. Gamble, The University of Georgia
The Impact of Discrete Pollutant Sources on the Water Quality of Lake Lanier ............................................. 174
M. Timmerly York, Appiah Amirtharajah, and Barbara Brouckaert, Georgia Institute of Technology
Forest Plan Revision on the Chattahoochee and Oconee National Forests ...................................................... 178
Marcus A. Beard, Interdisciplinary Planning Team for the Chattahoochee and Oconee National Forests
Upper Chattahoochee Headwaters Riparian Restoration and Education Project ............................................ 181
Katherine E. Baer, Upper Chattahoochee Riverkeeper; and Jennifer S. Derby, U.S. Environmental Protection Agency

Costs of Poor Water Quality Management
Moderator: Bryan Hager, Georgia Sierra Club
The Costs of Poor Water Quality Management .............................................................................................. 184
Bryan Hager, Georgia Sierra Club
Impacts of Poor Water Quality on Adjacent Property Owners .......................................................................... 185
Edmond A. Mayhew, Gainesville College
Silt: Its Impact on the City of Roswell’s Cecil Wood Water Purification Plant .............................................. 188
Costs of Not Being Able to Use Chattahoochee River Water Downstream from Atlanta .............................. *
Jim Baxley, Carroll County Water Authority
TMDL Lawsuit to Force Georgia to Develop an Effective Plan to Clean Up Polluted Waters ..................... *
Doug Haines, Georgia Center for Law in the Public Interest, Athens

TRACK III: WATERSHED PROTECTION

Aquatic Ecosystems Research
Moderator: Ronnie Haynes, U.S. Fish and Wildlife Service
Hydrologic Condition Analysis ......................................................................................................................... 189
Keith R. McLaughlin, USDA Forest Service
Watershed and Hydrologic Condition Analysis .............................................................................................. 192
Jim Greenfield, U.S. Environmental Protection Agency
Biomarker Assessment of Environmental Contamination: In-Situ Studies with Freshwater Bivalves .......... 193
Marsha C. Black, Stacy M. Westerfield, John I. Belin, and Kelley B. Van Vreede, Environmental Health
Science Program, The University of Georgia

Influence of Riparian Landform on Large Woody Debris Input and Movement in a Blackwater Coastal Plain Stream .................................................. 197

Stephen W. Golladay, J. W. Jones Ecological Research Center; B.J. Palik, USDA Forestry Service; and B. W. Taylor, J. W. Jones Ecological Research Center

Back to Odum: Using Ecosystem Functional Measures in Stream Ecosystem Management ........................................... 201

Michael J. Paul, Institute of Ecology, The University of Georgia

Local and Regional Planning for Water Resource Protection in Georgia

Moderator: Susan Crow, Institute of Community and Area Development, The University of Georgia

River Corridor Planning and Protection Strategies .................................................. 206

Lee A. Carmon, Northeast Georgia Regional Development Center

The Chattahoochee-Flint Regional Development Center’s Role in Local and Regional Water Supply Issues ........................................... 210

Lisa J. Hollingsworth, Chattahoochee-Flint Regional Development Center

Protection of Water Resources in the Big Creek Watershed ........................................... 213

Dee West, City of Alpharetta, Georgia

Advising Local Elected Officials in Water Resources Issues: Using Knowledge in “Speaking Truth to Power” ........................................... 216

David C. Kyler, Sapelo Foundation

A Case Study of the Establishment and Revision of Watershed Regulations for Douglas County, Georgia ........................................... 220

Cheryl A. Dean, Appalachian Council of Governments

Legal Tools for the Protection of River Corridors ........................................... 222

Ann Pickett, Georgia Environmental Policy Institute

Watershed Management

Moderator: Bill White, Georgia State Soil and Water Conservation Commission

The Broad River Watershed Protection Demonstration Project ........................................... 224

Susan Crow, The University of Georgia; Laurie Fowler, Georgia Environmental Policy Institute; and Sam Islam, Georgia Department of Community Affairs

The Ebenezer Creek Watershed Protection Demonstration Project ........................................... 227

Jonathan Ambrose, Department of Natural Resources Wildlife Resources Division, and Susan Crow, ICAD, The University of Georgia

Urban Watershed Initiatives: A City of Atlanta Case Study ........................................... 232

Ken Hall, CH2M HILL; and Tyler Richards, City of Atlanta Department of Public Works

Regional Water Quality and Wastewater Concerns: Technology Transfer, Environmental Education and Information Dissemination That Works ........................................... 237

James F. McGovern, ICAD, The University of Georgia

Georgia Adopt-A-Stream: New Directions ........................................... 239

Eve Funderburk, Georgia Department of Natural Resources

Watershed Quality and Land Use Trends

Moderator: Bruce Ferguson, School of Environmental Design, The University of Georgia

Analysis of Land Use and Land Cover Changes in the Ebenezer Creek Watershed, 1958-1993 ........................................... 241

Susan R. Crow, The University of Georgia; and Jonathan P. Ambrose, Georgia Department of Natural Resources

Comparing Water Quality Along a Gradient of Urbanization ........................................... 245

Lee Carrubba, Institute of Ecology, The University of Georgia

Watershed Evaluation Requirements to Manage Growth-Driven Water Quality Impacts ........................................... 249

Elizabeth Krouse, William A. Kreutzberger, Phillip Sacco, CH2M HILL; and Judy Bowers, Cobb County Water System

Flood and Sediment Interpretation at the Historic Scull Shoals Mill ........................................... 253

Bruce K. Ferguson, School of Environmental Design, The University of Georgia
Hydrology of the Okefenokee Swamp
Moderator: Kevin Hiers, Institute of Ecology, The University of Georgia
Wetlands Creation and Restoration of Functional Values at a Titanium Mineral Operation Along
Trail Ridge in Northeast Florida ........................................ 257
Jon A. Samborski, E.I. DuPont De Nemours and Co., Inc.; and Michael A. Miller, Environmental Services and Permitting, Inc.
Okefenokee Swamp Hydrology ........................................ 262
Cynthia S. Loftin, Florida Cooperative Fish & Wildlife Research Unit, University of Florida
Aquatic Communities of the Okefenokee Swamp .................... 266
Amy E. Bergstedt and Karen G. Porter, Institute of Ecology, The University of Georgia
Natural Communities and Hydrology of Trail Ridge ................ *
Jim Renner, Golder Associates, Inc.

Wetlands
Moderator: Larry Morris, School of Forest Resources, The University of Georgia
Climate Change, Rising Sea Level and the Fate of Coastal Wetlands ............... 270
Huda F. Alkaiff, Institute of Ecology, The University of Georgia
The Role of the Floridian Aquifer in Depressional Wetlands Hydrodynamics and Hydroperiod .......... 273
E.R. Blood, J.S. Phillips, D Calhoun, J.W. Jones Ecological Research Center; and D. Edwards, University of South Carolina
Premature Decline and Death of Trees Associated with a Man-made Lake and Groundwater Withdrawals
in Albany, Georgia .................................................. 280
Sydney T. Bacchus, Institute of Ecology, The University of Georgia
The Hydrogeomorphic (HGM) Approach to Wetland Functional Assessment: Concept, Development and Use .......... *
Wade Nutter, School of Forest Resources, The University of Georgia

TRACK IV: WATER QUANTITY

Floods and Droughts - Forecasting and Coping
Moderator: Regina Garza, National Weather Service Southeast River Forecast Center
Use of the Quantitative Precipitation Forecast in River Stage Forecasting .......... *
Judith Stokes Bradberry, National Weather Service Southeast River Forecast Center
Modeling Water Losses from Streams in Karst Areas .................. 287
Leslie R. Livingstone, C. Warren Campbell, The University of Alabama; and Regina Garza, National Weather Service Southeast River Forecast Center
Typical Operation of Flood Control Reservoirs in Georgia .......... *
Edmund Burkett, U.S. Army Corps of Engineers - Mobile District
The Use of Diverse Surface Weather Data Collection Systems in Support of the 1996 Olympic Games ........ 288
Carlos Garza, National Weather Service Southeast River Forecast Center, and Gerrit Hoogenboom, The University of Georgia
Identifying Vulnerable Public Water Wells in Flood Prone Areas .......... *
Barbara Stitt-Allen, Georgia Environmental Protection Division

Water Use and Pricing
Moderator: Pete Terrebonne, Policy Research Center, Georgia State University
Water Supply Facilities and Pricing in Georgia ...................... 291
Jeffrey L. Jordan, The University of Georgia
Possible Reasons and Results of a Hypothetical Price Increase of Water in the Atlanta Metropolitan Area .......... 295
Mary L. Spivey, DynTel Inc., Atlanta
Residential and Non-residential Water Use Factors for the Atlanta Region .......... 299
Scott D. Turner, Atlanta Regional Commission; and Bryna A. Cosgriff, Georgia Institute of Technology
Thirty Years of Research Through the Georgia Water Institute .......... 302
Bernd Kahn, Georgia Institute of Technology
Water Conservation and Reuse
Moderator: Jack Dozier, Executive Director, Georgia Water & Pollution Control Association
Water Conservation Regulations and Implementation for the State of Georgia ................................. 307
William N. Morris, Georgia Environmental Protection Division
The Use of the ISO 14001 Standard in a Water Conservation Program .................................................. 309
James Walsh, Paul Schlumper, Rochie Tschirhart, and Dean Desai, Georgia Institute of Technology
Data Management Strategies to Support U.S. Postal Service Storm Water Permitting ..................................... 312
Anwer R. Ahmed, David M. Paige, Gerald E. Seaburn, Law Engineering and Environmental Services, Inc.;
and Paul L. Fennewald, U.S. Postal Service
Water Reduction Performance Support System for the Poultry Industry ................................................... 315
John A. Pierson, Georgia Tech Research Institute

Stormwater Management
Moderator: Terry Sturm, Civil Engineering, Georgia Institute of Technology
Wet Weather Flows in Newly Urbanizing Areas: Initial Thoughts on Designs for the Future ...................... 318
Stephan J. Nix, S. Rocky Durrans, Steven J. Burian, and Robert E. Pitt, The University of Alabama
Delaware Sand Filter as an Option for Stormwater Runoff ........................................................................ 322
Danuta Leszcynska, FAMU-FSU Florida State University
A Modeling Approach To Identify Drainage Solutions for Downtown Columbus, Georgia ......................... 325
G. Patrick Zhang and Emmy Montanye, W.L. Jorden & Co., Inc.
Stormwater Runoff Modeling of Tributaries to the Chattahoochee River in Atlanta, Georgia .................... 329
Elizabeth Booth, Law Engineering and Environmental Services Inc.

Minimum Instream Flows, Reservoir Ecology
Moderator: Mary Freeman, Institute of Ecology, The University of Georgia
Recommended Flows to Protect Aquatic Habitat in Georgia Streams ....................................................... 329
James Evans and Russ England, Georgia Department of Natural Resources
Regulating Instream Flow Levels to Benefit and Preserve Aquatic Ecology:
- Potential Legal Authority for Instituting Variable Flow Regimes ............................................................... 332
  Candice Decaire, Law School, The University of Georgia
Monitoring the Effects of Reservoir Creation on Federally Listed Fish Species in the Southeast .................. 337
Paul Anderson, Barry G.H. Browne, Golder Associates Ltd.; and Byron J. Freeman, University of Georgia
A Review of Fish Ecology Models and an Approach for Integrated Reservoir and Ecological Management 342
Kelly Brumbelow and Aris P. Georgakakos, Civil Engineering, Georgia Institute of Technology

Sustainable Development Issues
Economic Growth and Natural Resources Protection: How Long Can We Have Both? .............................. 347
Russ England, Georgia Department of Natural Resources, Wildlife Resources Division
The Need for Developing Economic Assessment Approaches for Undervalued Natural Resources:
- Rivers and Wetlands ................................................................................................................................. 350
  Keith A. Parsons, Georgia Rivers Network Program
Blueprint for Successful Communities - Strategies for Shaping Livable Places ........................................ 353
  Ellen Keys, The Georgia Conservancy
The Preemption Threat: Do State Permitting Laws Preclude More Stringent Regulation at the Local 
  Government Level?  ................................................................. 349
  Laurie Fowler, Georgia Environmental Policy Institute

Safety of Drinking Water
Moderator: Dave Wangness, U.S. Geological Survey
Public Drinking Water Quality in Georgia ..................................................................................................... 356
Wayne R. Fuller, Georgia Department of Natural Resources
Results of Georgia Domestic Well Water Testing Program ....................................................................... 358
A Water Utility's Viewpoint on Recent Federal Drinking Water Regulations ............................................. 361
James M. Parsons, Cobb-County Marietta Water Authority
An Evaluation of Subtyping Methods for the Identification of Fecal Pollution Sources ............................. 365
Alison Buchan, Merryl Alber, Mary Ann Moran, and Robert E. Hodson, The University of Georgia
TRACK V. GROUNDWATER & COASTAL ISSUES

Advances in Groundwater Technology
Moderator: Gregory C. Mayer, U.S. Geological Survey
Characterization of a Crystalline-Rock Aquifer Near Lawrenceville, Georgia: Application of Advances in Borehole and Surface Geophysical Methods ........................................ 369
Melinda Chapman, David W. Hicks, Michael F. Peck, and W. Todd Tharpe, U.S. Geological Survey
Use of Ground-Penetrating Radar to Characterize Subsurface Hydrostratigraphic Units
Within a Georgia Coastal Plain Province ............................................. 373
Application of Remote Sensing for Detection of Possible Leakage of the Upper Floridan Aquifer
Along the Coast of Georgia ................................................................. 376
Neven Kresic and Martin Smith, Law Engineering and Environmental Services, Inc.
Complex Variable Boundary Integral Modeling of Groundwater Flow and Transport .................................................. 379
Todd Rasmussen, The University of Georgia; and Guo-Qing Yu, HoHai University

Coastal Water Quality
Moderator: Allan Hallum, Water Protection Branch, Georgia Environmental Protection Division
Tidal Circulation Modelling of a Georgia Coastal Sound ........................................ 383
Tom Gross, Skidaway Institute of Oceanography, and Francisco E. Werner, University of North Carolina
The Georgia Rivers Land-Margin Ecosystem Research Program .................................. 389
Richard Wiegert, The University of Georgia
PCB Contamination at the LCP Chemicals Superfund Site, Brunswick, Georgia .................. 392
Keith A. Maruya, Skidaway Institute of Oceanography; Kurunthachalam Kanan, Michigan State University; Paul Peronard, and Leo Francendese, U.S. Environmental Protection Agency
Modeling of Saltwater Intrusion from Brackish Canals in Southeast Florida:
Dynamics and Management Implications .............................................. 396
G. Patrick Zhang, W.L. Gordon Inc.; Richard Pfeffer, Florida State University; and Manfred Koch, Temple University

Floridan Aquifer
Moderator: D. W. Hicks, U.S. Geological Survey
Saltwater Intrusion in the Floridan Aquifer System, Northeastern Florida .......................... 398
Hydraulic Properties of the Karstic Upper Floridan Aquifer Near Albany, Georgia ................ 401
Debbie Warner, U.S. Geological Survey
Nature of Groundwater Aquifers in the Upper Coastal Plain of Georgia and South Carolina .......... 407
William M. Fay, Exploration Resources Inc.
Daniel J. Hippe and Jerry W. Garrett, U.S. Geological Survey

Groundwater Contamination and Remediation
Moderator: Seth Rose, Geology Department, Georgia State University
Tritium Migration in an Injection Well System: Decoupling Physical and Chemical Transport Processes in the Field ........................................ 420
John Seaman, Paul M. Bertsch, Savannah River Ecology Lab; and Richard N. Strom, Westinghouse Savannah River Company
Design Considerations for the Installation of Ground Water Recovery Trenches .................. 424
Thomas Kwader, Woodward-Clyde Consultants
pH Control of Landfill Seepage: A Case Study ........................................... *
William H. Lynch, Law Engineering and Environmental Services, Inc.
Coastal Groundwater Issues
Moderators: David Kyler and Becky Shortland, The Georgia Conservancy
Development of and Interim Strategy for Managing Saltwater Intrusion in the Upper Floridan Aquifer of Coastal Georgia .................................................. 427
William Frechette, Georgia Environmental Protection Division
Groundwater Use and Conservation in the Savannah Area ........................................... 431
Mary A. Elfner, Chatham County-Savannah Metro. Planning Commission
Alternatives for Ground-water Management in the Brunswick, Georgia, Area .................. 434
Martin E. Smith, Law Engineering and Environmental Services, Inc.
Alternative Strategies for Management of the Floridan Aquifer .................................. 436
   Becky Shortland, The Georgia Conservancy

Coastal Groundwater Management
Ground-water Management in Coastal Georgia and Adjacent Parts of South Carolina and Florida:
   I. Ground-Water Resources and Constraints to Development .................................. 437
Groundwater Management in Coastal Georgia and Adjacent Parts of South Carolina and Florida:
   II. Numerical Ground-Water Modeling ................................................................. 440
   L. Elliott Jones, U.S. Geological Survey
The Necessity for Water Supply Management Planning by Local Governments .............. 444
   David Rutherford, Chatham County-Savannah Metropolitan Planning Commission
   Craig Pendergrast, Paul, Hastings, Janofsky & Walker LLP

Surface and Groundwater Interactions
Moderator: Oscar Jackson, Bainbridge, Georgia
Ground-Water Flow and Stream-Aquifer Relations Near the Savannah River Site, Georgia and South Carolina ................................................................. 452
   John S. Clarke, U.S. Geological Survey
Simulating Lake-Groundwater Interaction with MODFLOW ....................................... 457
   Gregory Council, GeoTrans Inc.
Estimation of Baseflow From Streamflow Data in the Apalachicola-Chattahoochee-Flint and the Alabama-Coosa-Tallapoosa River Basins ........................................... 463
   L. Elliott Jones and Gregory C. Mayer, U.S. Geological Survey
Mechanisms Supporting a Potential Use of Municipal Sewage Sludge in Wetland Creation ................................................................. 467
   Ron Sawhill, School of Environmental Design, The University of Georgia

POSTER SESSION

Heavy Metal Loading to Lake Lanier from Point Sources of Pollution and Urban Runoff ................................................................. 474
   Barbara Browkaert, Apipah Anirtharajah, Guangxuan Zhu, and M. Timmerly York, Daniel Laboratory, Georgia Institute of Technology
Using GIS to Prioritize Water Quality Improvement Projects, Lake Lanier Basin ................ 474
   * Jimmy Bramblett, Natural Resources Conservation Service
Streambank Stabilization Using BioEngineering for the West Fork Chattooga River ......... 474
   * Dale Rapin, U.S. Forest Service
Development and Utilization of Genetic Probes for Studying Zebra Mussel Veligers ........... 478
   Marc E. Frischer, Skidaway Institute of Oceanography; Jane A. Wyllie, Andrew S. Hansen, and Sandra A. Nierzwicki-Bauer, Rensselaer Polytechnic Institute
Forecasting for Hurricane Josephine .............................................................................. 482
   Tarran Craver and Jonathan Atwell, National Weather Service Southeast River Forecast Center
Automated Weather Station Network ............................................................................. 483
   Gerrit Hoogenboom and D.D. Gresham, Department of Biological and Agricultural Engineering, The University of Georgia
Geo-Spatial Solutions for Water Resources and Environmental Applications ............... 487
